

Out-of-State Employment and Kelly Services – Frequently Asked Questions (Revised 08/15/2025)

Q 1. What is the difference between remote work and out-of-state employment?

Remote Work at UCF is defined as performing work at an alternate worksite within the State of Florida other than the employee's central workplace where official UCF business is performed. Out-of-State employment is when an individual is performing services for UCF at an alternate worksite outside the State of Florida.

Q 2. What is UCF's policy related to out-of-state employment?

The expectation is what all UCF employees reside in the state of Florida.

Q 3. What are the potential liabilities with an employee working outside the State of Florida?

When employees are allowed or assigned to work for UCF or any of UCF's direct support organizations from a jurisdiction other than Florida, such as another state, the possibility exists that additional taxes, expenses, and liabilities may be incurred because of the work being performed in a different legal jurisdiction. These liabilities could include payroll taxes to the non-Florida jurisdiction, unemployment compensation or workers compensation obligations in the different jurisdiction, additional employee benefits or insurance requirements, registration fees, etc.

Q 4. Does UCF have a solution to allow departments to employ out-of-state individuals?

Yes, UCF has contracted with Kelly Services which will allow departments (with appropriate approval) to allow certain employee types to perform services for UCF who reside out-of-state.

Q 5. What is Kelly Services?

Kelly Services is a staffing augmentation firm with over 30 years of experience in supporting higher Services and has worked with 150+ higher Services institutions. Kelly Services will administer pay, benefits, retirement, unemployment compensation, workers compensation, employment verifications, medical leave requests, etc., for out of state employees if you choose to use their service. Kelly Services will handle all the tax payments and reporting requirements. This will allow the individual who resides outside of Florida to perform services for UCF.

Q 6. Are hiring departments required to use Kelly Services?

Yes, if they intend to employ an individual to perform services for their

department and the individual resides outside of Florida.

Q 7. What is the cost to use Kelly Services?

See below. For example, if you have an A&P employee who earns \$50,000/yr., you would be charged \$61,000 (which includes the salary and the administrative fee of \$11,000); in addition to any of the direct health insurance and (retirement) 401(k) costs. The UCF fringe rate **will not** be charged for these individuals.

Faculty (excluding adjunct faculty) members, internationals in F-1, J-1, or H1B status, and student employees on a graduate assistantship.

Q 9. What happens if I have a student employee on a graduate assistantship or international employee on a F-1, J-1, or H1B status who moves out of state?

They would need to cease working for UCF once they move out-of-state. A termination action will need to be submitted.

Q 10. What if I have a current employee who is working for us but is temporarily out-of-state? Do they need to transition to Kelly Services?

If the line employee is working for you while out-of-state (in one of the fifty states) for no more than 6 weeks within a calendar year, they can remain an active employee with UCF and do not need to transition to Kelly Services. If it will be longer than 6 weeks within a calendar year, they will need to transition

to Kelly Services. Supervisors will need to monitor that employees are not working out-of-state for more than 6 weeks within a calendar year.

Please note that OPS employees are not provided the 6-week allowance. They will either need to be transitioned to Kelly Services, or their employment will need to be terminated.

Please note the above **does not include** individuals working in Puerto Rico for 6 weeks or less within a calendar year. You will need to secure the provost's approval, prior to allowing an individual to work from Puerto Rico, due to the different employment laws, rules, and taxation requirements in Puerto Rico.

Q 11. What if I have a current employee who tells me that they are moving out-of-state but would like to work for UCF remotely?

They will need to provide you with a resignation letter as UCF is a Florida-based employer. A termination action would need to be submitted. Permission for them to work remotely via Kelly Services will only be granted if one of the out-of-state employment guiding principles is met and is approved by the provost or appropriate VP.

Q 12. What if I have a current employee who informs me that they are moving out-of-state but would like to work for UCF remotely, but the department does not have the budget to use Kelly Services?

They would need to provide a resignation letter, and cease working for UCF once they move out of Florida. A termination action will need to be submitted.

Q 13. Are we authorized to actively recruit new hires to work remotely outside of Florida?

No, permission to work in another state will only be granted if one of the following out- of-state employment guiding principles is met and is approved by the provost or appropriate VP:

- 1) Contributes to UCF's teaching and/or research mission such that otherwise it could not be met by another employee or Florida resident new hire.
- 2) Provided required support services to students or staff that cannot be appropriately or effectively provided by another employee or Florida resident new hire.
- 3) Skills and background required for the job are so specialized and unique that required services for students and/or critical staff functions could not be provided by another employee or Florida resident new hire.
- 4) The out-of- state relationship is of substantial benefits to UCF's ability to meet our academic, research, or efficiency needs and could not be provided by another employee or Florida resident new hire.

Q 14. If the above criteria are met, what steps do I need to take for approval to

hire an out-of-state employee?

The Exception to Work out-of-State via Kelly Services form will need to be completed/ signed by all appropriate individuals prior to offering employment to an individual working out-of-state. If the form is approved, submit directly to Kelly.Fernandez@ucf.edu at least two weeks prior to the hire date. The individuals would be employed through Kelly Services and not UCF. Please be advised that USPS and A&P must go through the normal recruitment process at UCF.

Q 15. Does the foreign influence bill apply to employees hired through Kelly Services?

Yes, if they conduct research and meet the criteria under the foreign influence bill, additional screening is required before they can be hired through Kelly Services.

Q 16. When hiring out-of-state employees, who is responsible for reference and background checks?

If it is determined that a selected candidate is approved to work through Kelly Services, Kelly Services will conduct the background check screening.

Q 17. How much time does HR need to submit the information to Kelly Services for new hires?

All out-of-state employees processed through Kelly Services will need to have an active contingent worker record in Workday.

Q 19. If I have received approval to hire a new adjunct as instructor of record (due to out-of-state residency), do I still submit an EFQMS form?

Yes, you will also need to collect official transcripts and, as necessary, other supporting documentation (e.g., CV) to include with your submission. As with other UCF instructors of record, once the individual is certified in the FQMS, you need only submit an updated eFQMS form if the teaching assignment changes or the individual obtains additional relevant qualifications (e.g., a higher degree). Adjunct faculty must receive an evaluation after each semester's conclusion. The form for adjunct faculty may be found on the

Faculty Excellence website.

Q 20. If I have a new postdoctoral scholar (i.e., other contracted services personnel) whom I have received approval to hire through Kelly Services due to their out- of-state status, do I still need to collect an official transcript documenting the conferral of their terminal degree?

Yes, official transcripts (and, for credentials earned outside the United States, foreign equivalency evaluations) must be collected at the time of hire. The postdoctoral scholar's HRBC must then upload official transcripts (and, as applicable, foreign equivalency evaluations) to Workday as part of the postdoctoral scholar's education record. For more information on certifying transcripts as official as well as obtaining foreign equivalency evaluations and required supporting documentation, please contact Academic Program Quality or visit their [Academic Program Quality Website](#).
