

The Work Number® is an automated service that accelerates credit decisions by providing verifiers—mortgage lenders, credit card companies, auto dealers and more—with proof of your employment or income, instantly and securely.

This document provides step-by-step instructions on how you can access The Work Number to perform two functions available to employees:

- a. Generate a **Salary Key**, a single-use, six-digit code that you can provide to a verifier as consent to access your income information. *Note: In most cases, your consent is provided at the point of application for a service—when you sign a loan application or similar agreement—and a Salary Key is not required, but if you are asked to provide one, the below instructions will show you how.*
- or -
- b. View your free annual **Employee Data Report**, a record of your information contained on The Work Number database and a list of the verifiers who have accessed that information

Creating and managing Salary Keys

Note: In most cases, your consent to have a verifier access your income information has already been established at the time of application and you will not need to generate a Salary Key. However, if instructed to do so, here's how:

1. Click **“Prove Income to Verifiers”**
2. Click **“Create Salary Key”**
3. Provide the newly created salary key to the verifier, along with your employer name or code and your social security number.

The screenshots illustrate the process of creating and managing salary keys in the Work Number Employee portal. The first screenshot shows the 'Prove Income to Verifiers' link highlighted with a red arrow labeled '1'. The second screenshot shows the 'Create Salary Key' button highlighted with a red arrow labeled '2'.
