

Initiating a Security Request Form

You may request security for employees with an online form. This form allows you to initiate the request with the level of desired access and then it will be routed through the appropriate chain of command for approval. Once it reaches Human Resources or CS&T Security, the employee will be assigned access. This electronic form eliminates the need for paper forms. To use the electronic security request form:

The security request form is located under Main Menu - UCF IT Custom - HR eForms - HR Security Request.

The screenshot shows a web application menu. On the left, a vertical 'Menu' pane lists various categories. The 'UCF IT Custom' category is expanded, and the 'HR eForms' sub-category is further expanded. Within 'HR eForms', the 'HR Security Request' option is highlighted with a red arrow. On the right, a breadcrumb trail reads 'Main Menu > UCF IT Custom > HR eForms'. Below this, a grid of application tiles is displayed. One tile, titled 'HR Security Request' with the subtitle 'Human Resource Security Request', is enclosed in a black rectangular box.

As an employee of the University of Central Florida, I accept the responsibilities of having security in PeopleSoft CS & HCM to create or approve Electronic Personnel Action Forms (ePAFs) and/or process or authorize payroll and/or view Job Data. I understand that my security is for use in administrative support only. Any other uses of this access are strictly prohibited. I, further, understand that Human Resources reserves the right to terminate my security for improper or illegal use. I understand that my request will be processed in accordance with UCF and HR policy.
